No. 1 Printer Shop

Expertise keeps The Print Shop at forefront of the industry

With a staff that is approaching 100 years of experience in the printing business, Ben Gombar knows that their expertise is one of several reasons Saginaw News readers chose The Print Shop as the best printer.

In addition to their knowledge, meeting deadlines is critical to being successful in his business, Gombar said.

"Whenever you need it we'll do whatever we need to do to get it done," said Gombar, who purchased the business in 1998.

The Print Shop began operations more than 30 years ago in downtown Saginaw and later moved to Saginaw Township.

And while they have been in business for many years, Gombar said the business has changed more in the past 15 years than it had during the first half of its existence. The Print Shop has worked hard to be at the forefront of the latest print technology.

One exciting feature The Print Shop offers is its "Web to print" solutions, such as online proofing and creation of files that are printer-ready all through the company's Web site.

"You send us a proof using any software and we can create a file ready to print –

it's a big feature," Gombar said.

The Print Shop also is a Certified Printers International affiliated company, which Gombar says allows him and his staff access to support and education from more than 100 printers in North America.

Certified Printers International, or CPrint, is an elite franchise organization of printers of independently owned, family-based businesses. CPrint requires its members to have annual onsite certification as well as participation in continuing education programs.

Staff at The Print Shop takes advantage of the more than 30 hours of online training offered by CPrint each month.

Those programs have helped tremendously, Gombar said, adding that it also is nice to have such a large pool of printers that he can turn to for tips and advice if needed.

"It's really been a nice feature for us to belong to that organization," he said.
